Home Suite Home

MediaCom is once again warming up the penthouse suite at the Hotel Martinez for the Cannes Advertising Festival.

As in the last two years, the suite will be the must-visit destination for the festival with unmatched views over the Croisette.

Clients are welcome to use our suite as a home from home during the festival and even host meetings there.

Facilities include two private meeting rooms and a sea-front terrace, enabling you to stay calm during the chaos of Cannes and even recharge your batteries a little.

These facilities are on top of a programme of events that includes intimate chats with some of the biggest names in the marketing business and daily Cocktails & Curation sessions designed to appraise Lions winning work.
